

Skyping Mr. Rodgers (Beta)

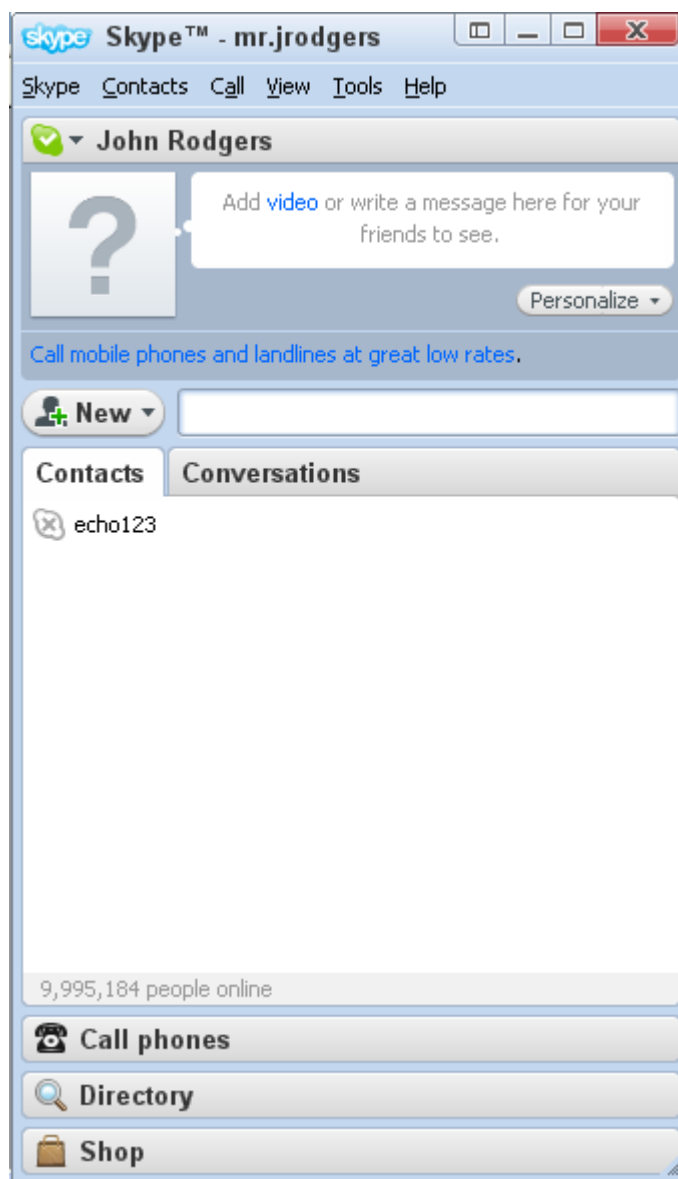

I would appreciate it if you would "Skype in" to the Learning Lab to help us evaluate Skype as a possible tool for quick video communication.

Skype is a free internet video telephone service. Talk to your parents before you sign up for an account.

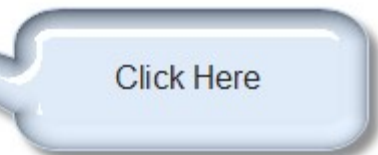

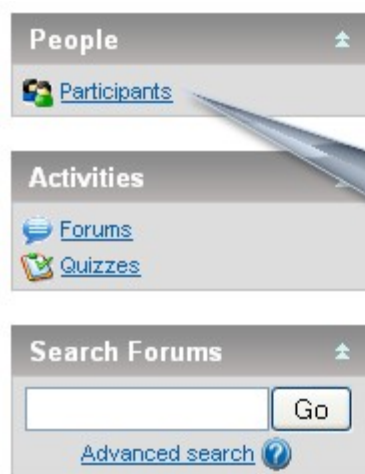

You can learn about Skype at <http://www.skype.com>

Although you can't install Skype permanently on your school profile, you can install it on a USB stick and carry it with you.

There are instructions on Youtube to install Skype on a stick. Just make sure you know the path your USB drive. It takes about 3 minutes to download and install.

You can find my Skype I.D. in my profile (click on my name under participants to find my profile)
