Student book questions

6.3 Stars have a life cycle

Pages 144–145

Check your learning 6.3

Remember and understand

1 What event marks the birth of a star?

2 Why are most stars 'main sequence' stars?

3 What is left after a supernova?

Apply and analyse

4 Draw a flow chart to show the life cycle of a star the size of our Sun.

Name: _____

Class: _____

- 5 Blue stars are much larger than our Sun. However, they do not have enough energy to explode. Draw a flow chart to show the life cycle of a blue star.
